Sir:

**PROPERTY RIGHTS STATEMENT**

We, Toshio Takabayashi, Takuya Homme and Hiroto Sato, all citizens of Japan, and all residing at Hamamatsu-shi, Shizuoka, Japan declare:

That we made and conceived the invention described and claimed in patent application Serial No. 09/737,819 entitled "Scintillator Panel, Radiation Image Sensor, and Methods of Making the Same" filed in the United States of America on December 18, 2000.

That we made and conceived this invention while employed by Hamamatsu Photonics K.K.; that the invention is related to the work we are employed to perform and was made within the scope of our employment duties; and that the invention was made during working hours and with the use of facilities, equipment, materials, funds, information and services of Hamamatsu Photonics K. K.

That to the best of our knowledge and belief that the invention was not made or conceived in the course of, or in connection with, or under the terms of any contract, subcontract or arrangement entered into with or for the benefit of the United States Atomic Energy

Commission or its successors: Energy Research and Development Administration or the Department of Energy; and that the invention was not made (conceived or first actually reduced to practice) under nor is there any relationship of the invention to the performance of any work under any contract of the National Aeronautics and Space Administration.

The undersigned inventors declare further that all statements made herein of their own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
